HIGH SECURITY LUXURY SAFES | INFINITE POSSIBILITIES

INFINITY
by Dominator Safes

SAFES ARE PERSONAL

Everyone has their own idea of what is priceless, and everyone has their own idea of what makes the perfect safe to properly secure what is most cherished.

Infinity by Dominator Safes allows you to decide just how you like it.

Start with one of our high security fire and burglary safes, to reflect the level of security required, then add your personal touch.

Choose any paint colour from an internationally recognised database, and decide which finish the paint is applied in. Or you can opt for a luxury leather bonded exterior with various pattern options.

Internally, you can choose to install automatic watch winders with variable settings, tailored to the specific watches you would like to secure. Luxury lined drawers and compartments ensure a gentle touch to sensitive and valuable items, with more than 15 different drawer interior layout options.

Including options for automatic LED sensor lighting, temperature and humidity control devices, as well as aesthetic elements such as mirrored panels and custom embroidery, Infinity Safes will deliver a truly unique, luxury security solution for any application.

Don't settle for a safe that is not made just the way you like it. With Infinity by Dominator Safes, you can decide.

EXTERIOR FINISHES

The exterior of your safe can be finished with your choice of high quality two-pack paint in various finishes, recessed leather bonding or with a unique custom vinyl wrap.

Choose your preferred paint colour from 1625 different colours in the internationally recognized RAL colour system.

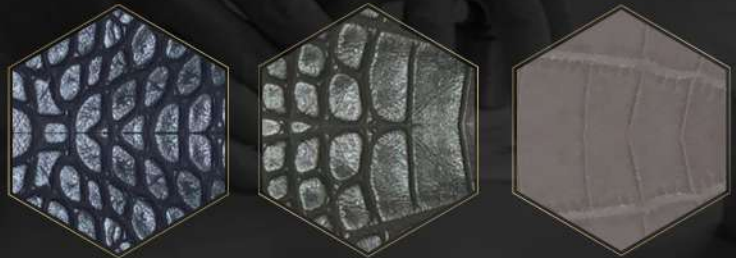

All colours can be applied in a High Gloss, Satin or Textured finish, providing thousands of possibilities for a completely unique look.

Or you can choose from over 160 different types and colours of leather bonding for the luxury feel.

Complement the design of your safe by choosing from chrome, gold, stitched leather or paint finished handles and locking hardware.

INTERIOR CONFIGURATION

Create your ideal interior layout by combining automatic watch winders, custom drawers and adjustable shelving to suit the specific items you wish to secure

Custom drawer and adjustable shelving

Choose the drawer sizes and the amount of adjustable shelves required

Full custom drawers

Configure as many drawers as you need, with variable sizes and layouts

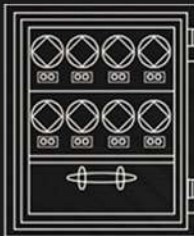

Watch winders with custom drawers and shelving

Variable in sizes and quantities to suit individual requirements

Simple shelving and custom drawers

Without all of the mechanics, but with all the luxury

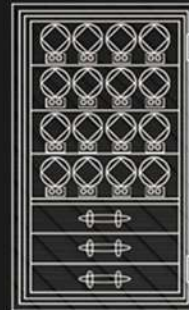

Compact 8 watch winder and drawer

For a dedicated watch safe to suit mechanical and non-mechanical watches

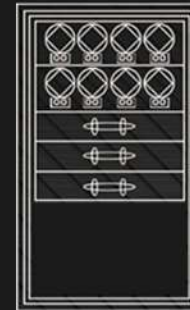

Large volume custom drawers

Multiple drawers configured in an ergonomic layout for convenience

Large volume watch winders and custom drawers

Adjust the volume of winders or drawers to suit

Watches, drawers and adjustable shelving

Cater for all requirements with variable watch, jewellery and shelving storage

Automatic programmable watch winders to maintain the desired number of rotations per day, relevant to the manufacturer's requirements

Watch winding units are programmable to 650, 750, 850 or 1000 turns per day, with upgrades available for more if required

Configure the drawers to your desired depth and select from 16 different draw layout options

4

INTERIOR FINISHES

Decide how you would like the interior of your safe to look by choosing your desired finish on the watch winder panels, drawer fronts and even the internal door panel

PANELS AND TRIM

Select from 5 different timber veneers, carbon fibre or 160 different luxury leather bonded panels with matching trims or contrasted with metal finish trims.

DRAWER FRONTS

Choose your preferred drawer front and handle shape to perfectly complement your design

DOOR PANEL

Include the quilted synthetic leather door inner panel, with standard or custom embroidery and jewellery or key hooks to maximise the use of space

AUTOMATIC LED LIGHTING

All Infinity Safes are fitted with hard wired automatic LED sensor lighting to activate once motion is detected and remaining off while not in use

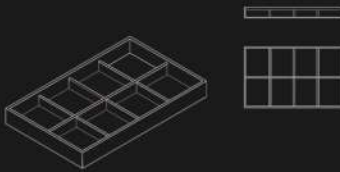

5

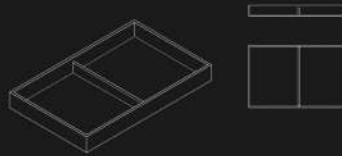

DRAWER INTERIOR LAYOUTS

With 16 different draw interior layouts, you can tailor the drawers perfectly to suit exactly what you would like to secure

SECURITY AND ACCESS CONTROL

Choose from our high security range of specialist safe locks to provide the ideal balance between ease of use and maximum security protection

Tecnosicurezza Pulse Pro electronic safe lock

Italy's premier brand of High Security safe locks, equipped with full audit recording, up to 50 user codes and versatile programming and maintenance features – *The standard fitting on all Infinity Safes*

Kaba LaGard Smart Series

The premier safe lock for high end applications, incorporating fingerprint access and multiple configuration options for maximum versatility and security.

Ross 1000ECL Key override

Ross safe locks allow for a restricted mechanical key override that is not easily overridden. The only Australian made safe lock that provides key override capabilities.

Ross 1000 BIO

A variant of the 1000 series lock that provides fingerprint access security for simple, easy to use security, available with and without key override.

S & G 4 wheel mechanical combination lock

If you prefer the more traditional mechanical safe lock, the S&G Four wheel provides exceptional security with a romantic feel.

WARRANTY AND CERTIFICATIONS

Year Warranty

All Infinity Safes are backed by Australia's Best Safe Warranty, with a complete 7 year manufacturer's warranty on all electronic and mechanical components.

See Warranty Information at www.infinitysafes.com.au for more information.

Upgrade

any Infinity Safes to our head to toe warranty and service plan for 25 year protection, including support and service for every part of your Infinity Safe

CNS Certified fire ratings

Provide guarantees that the internal temperature of your safe will not exceed 350°F for 105 minutes from the time of first exposure

UL-RSC

Underwriter's Laboratories UL-RSC Certification provide a measurable resistance grade for security safes tested for partial or complete access using a prescribed tool and equipment set.

UL-TL15

Underwriter's Laboratories TL15 certifications are granted to high security safes that are able to resist intense attacks from powered and hand tools designed commonly used in attempted safe attacks.

UL-TL30x6

Underwriter's Laboratories TL30x6 certification is an exceptional grading that ensures all 6 sides of a security safe are built with qualities that resist the more sophisticated and persistent attacks with more aggressive power and hand tools.
